**DONJOY®**  
TRAUMA COLLAR

# DONJOY®

## TRAUMA COLLAR

Universal Cervical Collar with  
proven pressure reduction, comfort,  
and anatomical support for  
immobilization of the cervical spine.

FEATURES AND BENEFITS

1. Open-Cell Padding

Provides optimal rebound velocity and the Nylon blend liner optimizes heat mitigation and moisture control

2. Large Trach Opening

3. Easy Pull And Turn Dial

Simple adjustment to 60 incremental heights provides a more customized fit and accommodates a wide range of anatomies

4. Thoracic Pad

5. Horizontal Flex

Adapts to larger anatomies

6. 20° Back Panel

Anatomically correct back panel mirrors the patient’s cervical lordosis

7. Quick-Clip Closure

The clinician’s initial fit is replicated at home to ensure proper performance

Reduced Pressure

- **Greater occipital pressure distribution** reduces the risk of pressure injuries (never events)
- **20° cervical lordosis built into posterior panel** provides anatomically correct patient positioning, increased immobilization and reduced pressure for supine patients

Increased Stability

- **Larger posterior panel** stabilizes the C-Spine by capturing a greater area above the occiput resulting in increased stability and immobilization
- **Restricts cervical motion** during anterior displacement test case study<sup>1</sup>
- **Significantly reduces axial rotation end-range ROM** at C1-C2 level compared to two other collars tested in an imaging study on healthy subjects<sup>2</sup>

Precise Fit

- **Quick-Clip closure system** for easy and repeatable donning and doffing
- **Universal Sizing with 60 micro-adjustment settings** captures a greater patient population including short and stout necks
- **Contoured out of the bag**, no shaping required
